

# JENSON LETTERBOX

## INSTALLATION INSTRUCTIONS

### Requirements:

*You will require the following to install your new pillar letterbox:*

- Concrete
- Spade
- Spirit Level
- Screw driver
- Spanner

### Installation

#### Step 1

a) Unscrew back panel at the base of your Jenson letterbox.

b) Attach stakes with pointed sides facing the ground using bolts provided.

c) Reattach back plate with 4 screws provided and your screwdriver.

#### Step 2

a) Measure the space between both anchor posts and dig two holes approximately the length of a standard spade and the depth of the stakes.

b) Check the holes you have made fit the posts of the letterbox and positioning allows for ease of use of your letterbox.

c) Pour concrete into the holes to set into position. Use a level across the top of the letterbox and adjust accordingly to ensure your letterbox will be set at a square angle.

Once the concrete has set your new pillar letterbox is ready to use.

## INSTALLATION

## INSTRUCTIONS

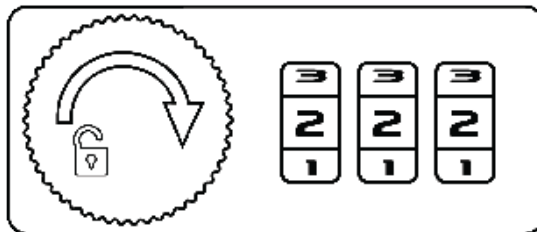

### How to set your combination lock:

The initial password is 0-0-0; to set your own password, please follow these steps:

1. Push the reset button from "A" to "B".

2. Set your own password by turning dials; ensure the numbers in the middle row are evenly aligned as shown below.

3. Push the reset button back to "A". The setting is completed.
